

LinkedIn Profile Scraping

Objective

- Create a program that scrapes the data from an individual's LinkedIn profile and stores the harvested data in a CSV file

Search through a subject's profile and scrape the following information:

- Subject's name

A circular profile picture of a man with dark hair and a smile, wearing a dark suit jacket over a white shirt. The background of the thumbnail is a scenic coastal landscape with green hills, sand bunkers, and the ocean.

About

The Seismic Group is dedicated to helping organizations build significant enterprise value by working with management teams to craft strategies and implement processes around (1) strategic sourcing of direct and indirect materials, (2) end-to-end supply chain optimization, (3) operational consulting, (4) Strategic Facility Planning, and (5) data analytics. www.theseismicgroup.com

We are agnostic to what industries we can engage with, but due to our historical customer base, we traditionally focus on the food, manufacturing, distribution, and warehousing sectors. Although we have many corporate clients, we typically work with middle market companies, most often private equity or family office owned, acting as extension of our client's management teams.

End-to-End Supply Chain, Operational & Real Estate Transformation

Seismic Facility Solutions is a management consulting firm that aligns a company's strategic vision with short and long-term tactical plans to create holistic, end-to-end supply chain, operational, and real estate strategies that allow for flexibility and growth.

We act as a resource extension to private equity firms, family offices, management teams, real estate developers, and service providers such as: accounting firms, law firms, investment banks, commercial banks, real estate brokerage firms, general contractors, and other trusted advisors.

We have been in your shoes and are all experienced operators. Our team ranges from 15-35+ years of executive leadership roles with private equity owned companies to the Fortune 100.

Once the strategy is crafted and team procured, we then execute on that plan by providing oversight, project management, and tracking tools to make sure your management teams have the support they need, giving them time to focus on their day jobs.

Chad Etter, MBA, CSCP · 3rd

Transportation Manager at Pactiv Evergreen Inc.

February 23, 2019, Chad reported directly to Steven

Steve is a forward-thinking team leader who sees what is and works to develop what could be. I had the opportunity to work with Steve for over 10 years. Over those 10 years, I had the opportunity to experience Steve investing in both people and processes and taking them to the next level. For Steve, it was not a matter of if it could be done, but when it could be done. Steve is a goal and solutions-oriented leader. Steve Hobbs is a knowledgeable and inspirational mentor. Steve takes time to invest in things, like people, plans, and processes, that will grow a business for future success.
